

Week 1: Exploratory Data Analysis (EDA) Executive Report

Author: Varshini Konatham | **Track:** Data Analyst Internship (FinTech) Prerequisite

1. Executive Summary & KPIs

This report synthesizes transactional performance across 500 validated order records. Total generated net revenue reached **₹59,398,695.00** with gross profit totaling **₹17,632,763.45**, representing an aggregate operating margin of **29.7%**.

Metric	Total Net Revenue	Total Profit	Transactions	Avg Ticket Size
Value	₹59,398,695	₹17,632,763	500	₹118,797

2. Key Business Insights & Findings

- **Top Earning Category:** Risk Engine and POS Hardware generated the highest aggregate revenue share, driven by higher unit contract pricing.
- **Regional Balance:** Sales volume was distributed evenly across North, South, East, and West territories, indicating resilient geographic diversification.
- **Discount Elasticity:** Transactions with discounts between 5% and 10% yielded the highest order volumes without degrading net profitability margins.
- **Statistical Distribution:** Revenue exhibits a moderate positive skew, with corporate enterprise deals (>₹100,000) representing the primary revenue drivers.
